

## Democratizing Proof of Existence

Do you know your great-grandparents' face and voice?

You become a story, generations connect in dialogue, the path forward.

Three-layer distributed storage carries voice, portrait, and text 1,000 years into the future.

### TokiQR — Voice, Portrait & Text in a QR Code

- Just scan and hear their voice — warmth, tone, personality intact (up to 30 sec per QR, free)
- See their face — recognizable portrait quality that lasts 1,000 years
- A letter's worth of feeling in a single QR code (~2,000 characters)
- Bulk Mode — split across multiple QR codes for high-quality audio with no time limit, images with no resolution limit, and unlimited text. Self-printable
- No service shutdown risk — plays on any smartphone, anytime, anywhere
- Deploy from a single QR sticker — print-ready, integration-friendly, for tourism, venues & events
- Earn from Three-Layer orders — 90% if you produce UV laminate, 10% if HQ produces. Free Wise account needed to receive [tokistorage.github.io/qr/](http://tokistorage.github.io/qr/)
