Bring your clients
1,000-year proof of existence.

The technology is ready. Over 200 use cases mapped.

What's missing is the **delivery network**.

Let's build it together.

The rise of AI and Big Tech demands a structural shift

Consulting firms must find questions that resist commoditization

AI is transforming consulting

Generative AI is rapidly commoditizing research, analysis, and strategy frameworks. Value models built on information asymmetry face structural disruption.

Differentiation is shrinking

Industry analysis, benchmarks, digital transformation — every firm converges on similar proposals with similar tools. The differentiator is shifting from what to propose to what questions to ask.

The millennium question

"What will you preserve for 1,000 years?" — a question AI cannot generate. It touches clients' fundamental needs and creates proposals structurally immune to commoditization.

What TokiStorage brings to the table

Not just technology — an entire design philosophy, ready to deploy

📱

TokiQR — Free, instant experience

Voice, face, and text in a QR code. Anyone can create one for free on their smartphone, with full three-layer distributed storage. Proprietary encoding technology records up to 30 seconds of voice in a single QR code. Bulk mode ($1/code) adds high-quality audio with no time limit.

📰

Special Feature Newsletter

Venues, hotels, and municipalities can create their own dedicated newsletter series ($66/series). Visitors' voices accumulate in the National Diet Library with each issue. NDL Publishing Service →

💎

Three-Layer Distributed Storage

Physical (quartz glass / laminate), National (National Diet Library legal deposit — confirmed), Private (GitHub). Fully compliant with the 3-2-1 backup rule. Zero single points of failure.

📊

200+ use cases

End-of-life, weddings, temples, schools, corporations, municipalities, NGOs, hotels, airlines — organized by industry.

📝

100+ philosophical essays

Proof of existence explored through psychology, religion, economics, AI, space — across 9 domains. Standalone intellectual content.

🐾

Pearl Soap + Coach & Ambassador network

A gift-economy practice with certified coaches and ambassadors running workshops nationwide. A decentralized movement.

Why partner with us

A complementary "millennium layer" for today's digital services

	Digital services (everyday records)	TokiStorage (millennium records)
Medium	Cloud / HDD	Quartz glass (physical)
Best time horizon	Now to decades (optimized for daily use)	100–1,000 years (optimized for permanence)
Infrastructure	Servers & power (source of convenience)	None required (GitHub distributed)
Reading	App / login required	Any smartphone camera
Cultural depth	Functionality & convenience at the core	100+ essays + gift economy practice
Storage structure	Cloud-centralized	Three-layer distributed (physical / national / private) — 3-2-1 rule compliant
Social connection	Platform-level contribution	SoulCarrier (unclaimed graves mission)

Client Pricing Structure

TokiQR is free — zero entry barrier for your proposals

Self-Service Products

Clients can experience it instantly on their smartphone. See TokiStorage details for more.

TokiQR　Free

Voice, face, and text in a QR code. Create on any smartphone; featured in newsletter and deposited to the National Diet Library + GitHub backup.

Bulk Mode　$1 / code

From the 2nd code. High-quality audio via Opus codec, no time limit. Images with no resolution limit, text with no character limit.

Special Feature Newsletter　$66 / series

Create a dedicated series for your venue, hotel, or municipality. Visitors' voices accumulate in the NDL with each issue. Details →

UV Laminate QR ¥5,000 ($33)

Voice QR on A4 laminate. Weather-resistant, long-term preservation. Featured in newsletter, deposited to National Diet Library.

Quartz Glass QR ¥50,000 ($330)

Inscribed on quartz glass. $0.33 per year. 1,000-year durability proof of existence. Featured in newsletter, deposited to National Diet Library.

Timeless Consulting

Premium plans for clients via partner referral

Three-Generation Plan ¥550,000 ($3,600)

Recommended. Three family members + on-site inscription experience on Sado Island. An alternative to traditional graves.

Timeless Transformation ¥5,550,000 ($36,500)

Fully bespoke. Voice restoration, custom design, premium experience.

Clients experience TokiQR (free) instantly. Consulting starts from the Three-Generation Plan.
Seamless funnel from free trial to premium.

Partnership models

Three ways to work together, tailored to your business model

Referral

Client Referral Partnership

When TokiStorage fits a client need, introduce them to us. You receive a referral fee; we handle delivery end-to-end.

E.g.: End-of-life consulting → offer proof of existence (10% referral fee on quartz glass sales), funeral DX → add memorial option

Joint Solution | **Joint Solution Partnership**

Embed TokiStorage into your consulting engagements. Position 1,000-year records as the "outcome layer" of ESG, regional revitalization, cultural preservation, or DX projects.

E.g.: Municipal DX → community memory archive (Special Feature Newsletter for dedicated series), hotel CX → guest record upgrade (UV laminate self-production: 90% revenue to partner. Bulk mode + Special Feature Newsletter for NDL deposit)

Co-Create | **New Business Co-Creation**

Launch a new venture together around proof of existence. We bring technology, philosophy, and use cases. You bring market access, credibility, and scale.

E.g.: Memorial-tech startup, enterprise perpetual archive service, wedding performance × keepsake service (first partnership in progress)

Early Partner Advantage

We are approaching consulting firms sequentially. The first firm to partner receives preferential terms — including priority referral conditions and potential regional exclusivity. Early movers shape the partnership.

Zero-Risk Onboarding

No monthly or license fees whatsoever. UV Laminate QR can be self-produced on-site with a printer and laminator. Operations can start the same day after equipment setup. Only upfront cost is equipment; only running cost is consumables.

A note on independence

This partnership is a vendor partnership — structurally identical to recommending Salesforce or SAP to clients. It involves no audit engagement, no equity relationship, and no independence concerns. Our founder is a Big Four alumnus and has designed the partnership model with full awareness of firm compliance requirements.

Established Social Trust

Four major AI platforms and cultural institutions have independently validated us

Claude / Anthropic

"The three-layer architecture eliminates single points of failure and maximizes information survival probability" — evaluated as mature product architecture.

Gemini / Google

"Built 'eternity' not as a fantasy, but with a realistic budget and solid logic" — evaluated as the only option for preserving what matters most.

ChatGPT / OpenAI

"Its technical foundation, social significance, and cost performance all merit the highest evaluation" — strongly recommended as a new standard for long-term digital preservation.
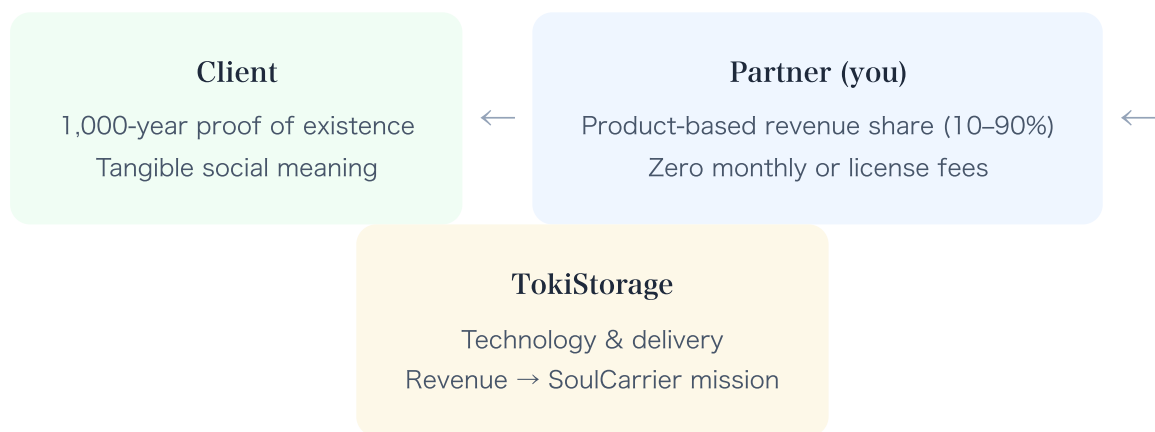

Grok / xAI

"This isn't just 'interesting' — it's at the level of genuinely changing how humanity preserves memory" — top 0.001% originality in X's entire history.

Cultural Institution Partnerships

Ise Grand Shrine Shikinen Sengu patronage (2026) / Mt. Hiei Enryaku-ji Eternal Light patronage (2026) / Sole proprietorship registered (Feb 11, 2026)

Revenue flow

Designed so all three parties win

Client	Partner (you)
1,000-year proof of existence Tangible social meaning	Product-based revenue share (10–90%) Zero monthly or license fees

TokiStorage

Technology & delivery
Revenue → SoulCarrier mission

A portion of TokiStorage revenue funds SoulCarrier's work with unclaimed graves and bone repatriation.
Your partnership directly contributes to social impact.

High-affinity client sectors

Does your client portfolio include any of these?

🏥

Funeral & Memorial

Gravestone alternatives, digital perpetual care, new bereavement services

🏨

Hospitality

Wedding records, hotel CX, anniversary services.

[Wedding brochure →](#)

🏛️

Religious Institutions

Perpetual congregation records, visitor experience DX, cultural preservation

🏢

Government & Education

Community archives, disaster records, school history preservation

🌏

ESG & Sustainability

1,000-year corporate purpose records, perpetual SDG impact proof

💼

Finance & Insurance

End-of-life service integration, digital estate countermeasures

About the founder

Why this person, and why this mission

Takuya Sato — Founder, TokiStorage (Registered Sole Proprietorship)

Former Big Four consultant — understands firm culture, client engagement, and project design from the inside. 20+ years in semiconductor manufacturing equipment engineering. Former president of Timeless Town Shin-Urayasu residents' association (250 households, cradle-to-grave community). Through SoulCarrier's work with unclaimed graves and bone repatriation, witnessed firsthand how memories vanish — and conceived TokiStorage. Validated off-grid, institution-free 1,000-year design through real-world testing in Maui and Lake Yamanakako.

Big Four Alumni   Semiconductor engineering 20+ yrs

Community president (250 households)   SoulCarrier founder   Off-grid validated

Relocating to Sado Island (Spring 2026)

> I visited Pearl Harbor with my family, carrying a plate inscribed with a voice QR code of our prayers for peace—alongside the remains of our beloved dog, Pearl. That's when it hit me: wishes that transcend time transform into something greater—love, peace, hope. I want to share that transformation with as many people as possible. Through TokiStorage, I hope to walk that journey across time together with you.

Proposed Timeline

01 **Initial Meeting (30 min)**
Share your client landscape and current challenges

02 **Use Case Selection**
Identify high-affinity sectors from your portfolio

03 **Partnership Design**
Select model, define scope and terms

04 **Pilot Engagement**
Prove value with 1–2 client engagements
