TokiStorage

Voice Preservation for 1,000 Years

Democratizing Proof of Existence

Do you know your great-grandparents' face and voice?

Only a handful make it into history. Ordinary people are forgotten in three generations.
Three-layer distributed storage carries your voice and memory 1,000 years into the future.

TokiQR — Voice Encoded in a QR Code

- · Up to 30 seconds of voice in a single QR code
- · No server required — plays offline on any smartphone
- · Print-ready · free to integrate into your own service
- · Setup page: deploy from a single QR sticker (stamp rallies, tourism, events)
- · Proprietary encoding technology
- · Try it free now → tokistorage.github.io/qr/
